Cosmetology and  
Infection Control: What  
Cosmetology Students  
Need to Know

Chemical agents like  
liquid disinfectants  
remain the most  
common (and arguably  
the most practical)  
method of infection  
control in salons.

Antiseptic solutions  
may be used in many  
instances, but they are

Chapter

There is nothing that can scare people more than the knowledge that there is a new virus or infection, and no one has an idea on how it is spread, or it is spread at all. This is why practitioners aim to find this out first before they can look for a cure as we continue to learn about infection control, we covered principles and practices surrounding
