### Leadership And The New Science

“ Leadership and the New Science surpasses all books to date in management science. It is truly in a class by itself, introducing a standard of excellence in thought and perception against which all other management books and thought will surely be measured.” —Gerene Schmidt, Founder And Ceo, Science, Business, And Education, Inc.

### Leadership and the New Science: Discovering Order in a ...

Leadership and the New Science is the bestselling guide to applying the new science to organizations and management. The book describes how the new science radically alters our understanding of the world, and how it can teach us to live and work well together in these chaotic times.

### Leadership and the New Science - Margaret J. Wheatley

Leadership and the New Science is in my top five books of all time. I've read it several times over the last decade. Reading it for the first time was a validating experience for me. I had always felt I was a misfit for not buying into what I can now term as, "the newtonian" philosophies of other business owners.
