## **Permutations And Combinations Independent Practice Answers**

For combinations, since  $k$  objects have

# Online Library Permutations And Combinations Independent Practice Answer

$k!$  arrangements, there are  $k!$  indistinguishable permutations for each choice of  $k$  objects; hence dividing the permutation formula by  $k!$  yields the following combination formula: This is the same as the  $(n, k)$  binomial coefficient (see binomial theorem; these combinations are sometimes called  $k$ -subsets). For example, the number of
