A Problem/Solution paper requires you to investigate a problem, examine alternative solutions, and. You'll first describe the problem and persuade your reader that the problem needs to be addressed. Then, explain a possible solution(s) and provide support to show why the solution is a good choice.

A Problem/Solution paper requires you to investigate a ...

For example, in an observation of 190 hours of nursing work in four hospitals, researchers saw 120 problems. Of those 120 problems, 110 were tackled and solved as type 1 solutions, which close the immediate gap without necessarily preventing recurrence in the future. 1 Type 2 solutions prevent recurrence, often getting at deeper causes. Do these numbers match your experience?

Flexiprep is your one stop website for all things NCERT. We have detailed solutions to NCERT problems and notes which are applicable to all competitive examinations.

NCERT Books, NCERT Problem Solutions and Topic Wise Notes ...

Solution: Let's consider the first 100 years i.e. Year 1.A.D to year 100 A.D Dividing the first 100 by 4 we get that first 100 years had 76 ordinary years and 24 ordinary years. (The quotient when 100 is divided by 4 gives 25 but the year 100 itself is not a leap year as it is not divisible by 400 hence 24 is considered instead of 25)

Calendars - Questions, Tricks, Problems and Solutions

for most of the problems. If a point is not an ordinary point we call it a singular point. The basic idea to finding a series solution to a differential equation is to assume that we can write the solution as a power series in the form, $y(x) = \sum_{n=0}^{\infty} a_n(x-x_0)^n$ (2) $y'(x) = \sum_{n=0}^{\infty} n a_n(x-x_0)^{n-1}$
