Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

The Steam Pump Jump A

Lingoss wants to jump to some steam pump demonstration that happens just before the English Civil War. As R&D she loves that nonsense. Peterson seems happy-ish around her so Max wants to give it a prod. She enlists Markham to help get them alone time on the jump. Of course this is St Mary's and it is Markham so things go a bit sideways but in a ...

Pusch used the Steam Pump Ranch as an overnight stop for the trip to the Feldman Ranch—55 miles from Tucson. He would travel in a wagon across the Antelope Plains, and on many occasions mounted Apaches would circle the wagon to greet my grandfather. He never carried a gun, but instead would give the Indians sugar, flour, and other provisions. ...

Society

Two Union steam pumps were installed on the tenders of the locomotives at Golden Spike National Historic Site in case of fire, to pump water from the tenders.

Steam Water Pump

As the steam condensed in one chamber, it acted as a suction pump, while in the other chamber, steam was introduced under pressure and so it acted as a force pump. At the end of every stroke, a ball valve consisting of a small brass ball moved slightly, causing the two chambers to swap functions from suction-pump to force-pump and vice versa.

Pulsometer pump - Wikipedia

A pump is a device that moves fluids (liquids or gases), or sometimes slurries, by mechanical action, typically converted from electrical energy into Hydraulic energy.Pumps can be classified into three major groups according to the method they use to move the fluid: direct lift, displacement, and gravity pumps. Pumps operate by some mechanism (typically reciprocating or rotary), and consume ...

Pump - Wikipedia

Steam pumper fire engines were used roughly from 1840 to 1920 to pump water on city fires. Large urban fire departments would invest in fire brigades, or engine companies, to assist in fire fighting. Concomitant with the steam engine would be a house, horses and dalmatian dogs (used to guide and calm the horses). The growing cities in the US west would invest in steam pumpers usually after a ...
