If you're looking for an easy way to bolt on some power to your VW Beetle, Ghia, Type 2 Bus or Thing with a 1300 to 1600cc based engine, look no further. We've put together a few of our favorite bolt on components that will increase power, performance and still maintain good driving manners and reliability. Starting with the carburetor, EMPI's 38EGAS carb kit offers improved performance with 2, 38mm barrels which open synchronously.

The Type III employs a rather flat "pancake" cooling system design, while the Bus and Beetle use an up-right fan shroud system. So when VW parts people, books, or parts catalogues refer to an engine as Type I, II, or III, they are referring to the entire engine assembly, not just the long block. In 1972, the Bus switched to the "Type IV" engine.
